## Technical and Decoration

# Elevator Interior Design & Decoration

Designing and executing the interior cabinet design team, by architecturally dividing the buildings into three main categories to modern, classical and postmodern, is trying to make the elevator cabin interior as consistent as possible with the architecture and use of the building.

The taste of design combined with up-to-date knowledge and use of specialized design and architecture software in the design team, as well as the accuracy of the interior design of the elevator cabin, make it a more precise and beautiful choice for customers before production.
